"Hunter and I worked together for around a year at Ameren. He is a very knowledgeable and dependable Project Manager.

He is proficient at managing both Agile and Waterfall projects. He flawlessly executed five projects in parallel without issue.

Hunter developed multiple templates that are being utilized across the PMO. I would not hesitate to recommend him as he would be a valuable asset to any organization."

"I've worked with a number of different people over the years and Hunter is one of the best. His diligence and dedication to his craft shows in all that he does. Not only does he accomplish great work but his methodical approach to planning out and delegating work enables others to see clearly what needs to be done, why it needs to be done and when to do it. He also is willing

to offer and listen to ideas and run with them. A lot of people talk about ideas, plans or what could be done, Hunter puts those ideas into effect, leads the team necessary to make it happen, and is somehow kind and patient to all that he works with along the way.” - LinkedIn Recommendation
